

# Building Blocks Plans and Elevations

## Instructions

Cut out the sheet of cards and match them to the given diagrams. Not all diagrams have a match, in which case you will need to sketch the missing plan or elevation.

Some diagrams will have similar or the same solutions, in which case you need to check that the plans or elevations are the right way up.

The front and side elevation should be considered from these directions:

## Extension

Can you sketch what you think the plan and elevations of this brick character might look like?
